COMMITTEE REPORTS: None.

CITIZENS PARTICIPATION PERIOD: None.

OLD BUSINESS: None.

NEW BUSINESS:

1. Consideration of the purchase of a block of internet protocol version 4 (IPv4) addresses

General Manager Bryant reported CWEP requested proposals for the purchase of Internet Protocol version 4 (Ipv4) addresses, which are essential for uniquely identifying devices on a network and facilitating data communication over the internet to support continued growth.

Proposals were received from Hilco IP Services, LLC, for \$67,584.00, IPv4 Market Group, LLC, for \$67,584.00, and from Nationwide Computer Systems, Inc. in the amount of \$77,892.36.

Although two proposals offered the same pricing, Ipv4 Market Group provided a more detailed explanation of their method for verifying the quality of the IP subnets. Considering the importance of IP quality and the lack of other relevant differentiators, the IT and Communications Department believes that Ipv4 Market Group is able to supply additional IP addresses without any anticipated delays.

A motion by Schmidt and seconded by Ross to award the purchase to Ipv4 Market Group for the total of \$67,584.00, passed unanimously.

2. Consideration of grit chamber upgrade project at the wastewater treatment plant

General Manager Bryant noted a request for approval to proceed with the grit chamber upgrade project at CWEP's Wastewater Treatment Plant. This project will include the replacement of grit augers and electrical panels.

The cost of this project is \$163,903.11 and will include all materials and labor. The original budget for this project was estimated at \$150,000.00. This construction work will be conducted in accordance with the General Construction and Operational Maintenance Services Contract with Randy Dubry Construction.

A motion by Schmidt and seconded by Gier to award this project to Randy Dubry Construction in the amount of \$163,903.11, passed unanimously.

Financial Ratios
For the 8 months ending February 28, 2025 & 2024

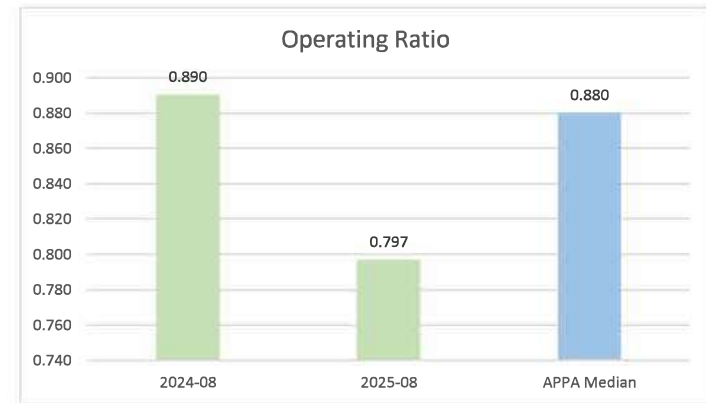

The ratio of total current and accrued assets to total current and accrued liabilities. Measures CW&EP's short-term liquidity (the ability to pay bills). The higher the ratio, the more capable the company is of paying its obligations, as it has a larger proportion of asset value relative to the value of its liabilities.

Represents the number of days that CW&EP can continue to pay its operating expenses, given the amount of cash available. The average days cash on hand is 90-120 days, with 200 days preferable for a high bond rating.

This ratio measures CW&EP's ability to meet its current and long-term liabilities based on the availability of assets.

The ratio of total operation and maintenance expenses to total operating revenues. The smaller the ratio, the greater CW&EP's ability to generate profit if revenues decrease.

Financial Ratios (continued)
For the 8 months ending February 28, 2025 & 2024

Represents the total dollar amount of Purchased Power as a percentage of the Electric Department's operating income.

Debt service coverage ratio is a measure of the cash flow available to pay current debt obligations. A debt service coverage ratio greater than 1 means the entity has sufficient income to pay its current debt obligations.

RE: Engine Silencer Shrouding

Dear Mr. Bryant,

Proposals were requested to shroud four engine silencers at the CWEP Power Plant. Site visits were conducted with several contractors interested in the project. Farabee Mechanical, Inc. submitted a proposal for \$151,674.00, which includes a five-year warranty on materials and labor. Another proposal was received from John Henry Foster for \$207,540.86, offering a one-year warranty on materials and labor. Two other contractors declined to participate in the project.

Upon your consideration and approval, I recommend awarding this project to Farabee Mechanical, Inc. in the amount of \$151,674.00. This contractor has previously provided other quality contracting services at the CWEP Power Plant.

Respectfully,
